EDUCATION

FACULTY OF SCIENCES AND TECHNOLOGIES

State Engineer in Software and Intelligent Systems

2021 – 2024

Tangier, Morocco

KOUTOUBIA PREPA

Preparatory Classes for Engineering Schools

2019 – 2021

Marrakech, Morocco

RELEVANT COURSEWORK / SKILLS

- DevOps Practices
- Docker & Kubernetes
- Cloud Computing (AWS, OpenShift)
- Network Security & Monitoring
- Continuous Integration/Continuous Deployment (CI/CD)
- Infrastructure as Code (IaC)
- Linux Systems
- Agile Methodologies (Scrum, Jira)

EXPERIENCE

Freelance Developer

10/2021 – Present

Full-Stack Developer & DevOps Engineer

Remote

Delivered end-to-end web development solutions, including frontend, backend, and database design, for various clients.

Implemented CI/CD pipelines using tools like Jenkins, Docker, and GitHub Actions to automate deployment processes.

Managed cloud infrastructure (AWS, Azure) and containerized applications using Docker and Kubernetes.

Set up monitoring and logging systems with Prometheus, Grafana, and ELK stack for improved application performance and reliability.

Abrid Solution [🔗](#)

10/2024 – 02/2025

DevOps Engineer Intern

Marrakech, Morocco

Worked with a team to build and maintain a Kubernetes-based infrastructure for scalable containerized applications. Automated deployment pipelines using Jenkins, Docker, and GitHub Actions.

Implemented monitoring solutions with Prometheus and Grafana, integrated security best practices using SSL/TLS and Keycloak for authentication.

TE Connectivity [🔗](#)

02/2024 – 07/2024

IT Business Analyst

Tanger, Morocco

Managed system upgrades and deployed cloud infrastructure improvements. Assisted in optimizing network security, and worked with the DevOps team for performance tuning and configuration.

Allobaba Digital Marketing Agency [🔗](#)

07/2023 – 09/2023

Full-Stack Software Engineer

Marrakech, Morocco

Developed a CRM application using Java, Spring Boot, Angular, and MySQL; implemented CI/CD pipelines for smooth deployment and integration.

MINNOVA Consulting [🔗](#)

07/2022 – 08/2022

Full-Stack Software Engineer (First-Year Internship)

Tinghir, Morocco

Developed and deployed a stock management application with PHP, Laravel, and Angular; integrated with a MySQL database.
